Amdt. dated February 7, 2005  
Reply to Office Action of October 5, 2004

Attorney Docket No. PN01032AA

**Amendments to the Claims:**

1. (Currently Amended) A method of a server for ordering goods or services, the server being capable of communicating between a plurality of wireless communication devices and a plurality of providers of goods or services, the method comprising ~~including~~ the steps of:
  - receiving a request for the goods or services from a user by way of a device;
  - accessing a database having information relevant to said user and preferences related to said goods or services;
  - forwarding an order for the goods or services to a provider of said goods or services, said order dependent on said information;
  - receiving a reply regarding said order from said provider;
  - formulating a response concerning said order and said reply, said response dependent on capabilities of said device; and
  - sending said response to said device.
2. through 10. (Canceled)
11. (Original) The method of claim 1 wherein said step of receiving a request further includes receiving a request that is dependent on said capabilities of said device.
